IRIS SMART
TECHNOLOGIES

The journey began in 1990 with a vision to localize and lead in Nigeria's IT space. Backed by the experience of Image Technologies Limited, which has held exclusive partnerships with international tech giants like Bull SA, our foundation is deeply rooted in quality, trust, and technological excellence.

From the first e-banking platforms in Nigeria to the nation's pioneering electronic passport and voter registration systems, ISTL has consistently delivered large-scale digital transformations with lasting impact.

About Us

IRIS Smart Technologies Limited (ISTL) is a dynamic Nigerian ICT company committed to delivering innovative, intelligent, and integrated solutions to both government and enterprise clients. With a rich legacy rooted in Image Technologies Limited, ISTL stands at the forefront of transformative projects that touch the lives of millions.

We specialize in turnkey technology implementations—ranging from secure identity systems to bespoke software, systems integration, and data infrastructure—making us a trusted name in critical national and private sector digital solutions.

SOFTWARE DEVELOPMENT

**Tailored Software
Solutions for the
Future**

At ISTL, we specialize in delivering custom software development services designed to meet unique client needs across industries. Whether it's a government portal, enterprise system, or workflow automation platform, our team leverages modern development frameworks to deliver secure, scalable, and intuitive applications.

Why ISTL?

With decades of experience and a track record of success in national projects, ISTL ensures your software drives innovation and operational excellence.

01

CUSTOM-BUILT SOLUTIONS

Tailored software designed to meet your exact business needs and operational goals.

02

SCALABLE ARCHITECTURE

Applications built to grow with your organization, ensuring long-term value and performance.

03

AGILE DEVELOPMENT PROCESS

Quick iterations, client feedback, and flexible deployment ensure fast and effective delivery.

DATA CENTRE OPERATIONS

Secure, Scalable & Always On

Our state-of-the-art data centre operations provide a robust foundation for your digital infrastructure. From server hosting to business continuity planning, ISTL ensures high availability, data protection, and seamless IT service delivery.

Why Choose Us?

We don't just offer infrastructure—we deliver peace of mind. Your systems, data, and applications are in safe, professional hands.

Our Capabilities

Always-On Architecture

Redundant systems and 24/7 monitoring guarantee uptime and reliability.

Scalable Hosting Services

Easily expand infrastructure as business demands grow without disruption.

Data Security & Compliance

Robust protocols protect sensitive data and meet regulatory standards.

Efficient Resource Management

Smart allocation of computing, storage, and network resources to optimize performance and reduce operational costs.

SYSTEM INTEGRATION

ISTL bridges the gap between your existing systems and emerging technologies through end-to-end system integration services.

We help organizations streamline operations by enabling smooth communication between hardware, software, and digital platforms.

End-to-End Connectivity

Seamless integration between legacy systems and modern technologies.

Real-Time Data Flow

Enable synchronized operations and instant information sharing across departments.

Simplified Operations

Simplifies IT environment and boosts efficiency through unified systems.

MOBILE APP DEVELOPMENT

Empowering Mobility through Innovation

Stay connected with your audience—anytime, anywhere. ISTL's mobile app development services deliver intuitive, high-performance applications for Android, iOS, and hybrid platforms. From government services to enterprise solutions, our apps are secure, user-friendly, and goal-driven.

ISTL'S EDGE

We craft mobile experiences that drive user engagement, operational efficiency, and digital transformation.

OUR CAPABILITIES

Cross-Platform Expertise

Determine a structured business plan

Strategy

Strategy is how to keep your business stable

Marketing

Marketing is a way for a business to be known

IDENTITY MANAGEMENT

Trusted Digital Identity Solutions

With extensive experience in national ID projects, ISTL is a pioneer in identity management systems that are secure, scalable, and adaptable. Our solutions protect identities, simplify verification, and enhance national and organizational security.

OUR CAPABILITIES

Biometric Integration

Facial, fingerprint, and iris recognition for secure and fast authentication.

Smart Identity Systems

ePassports, eIDs, and secure access cards to streamline identity verification.

Fraud Prevention Tools

Advanced systems to detect, prevent, and reduce identity fraud.

OUR TRACK RECORD

From electronic passports to voter ID systems, ISTL has enabled millions of secure digital identities across Nigeria.

DATABASE ADMINISTRATION

Reliable Data Management.
Uncompromised Performance.

Data is the lifeblood of modern organizations. ISTL offers comprehensive database administration services to ensure your data is accurate, available, and always secure. We manage and optimize databases for maximum performance and compliance.

WHAT WE DO

- ✓ Database design and implementation
- ✓ Performance monitoring and tuning
- ✓ Backup, recovery, and disaster planning
- ✓ Security management and access control

WHY ISTL?

With proven experience in large-scale government and enterprise systems, we ensure your data is well-governed, secure, and performance-ready.

OUR STRENGTHS

Why Choose ISTL?

At IRIS Smart Technologies Limited (ISTL), we combine decades of expertise with future-driven innovation to deliver exceptional IT solutions. Our deep-rooted experience in smart technologies, microchip projects, and integrated systems has positioned us as a trusted partner for businesses, governments, and institutions. With a focus on security, scalability, and operational efficiency, we help our clients navigate digital transformation with confidence.

Through strategic alliances, a highly skilled team, and a comprehensive service portfolio, ISTL offers a unique advantage. Whether it's building large-scale identity solutions or implementing complex IT infrastructures, our commitment to quality, integrity, and client success stands at the heart of everything we do.

Smart Technology Expertise

Decades of experience in microchip, smartcard, and identity management solutions, delivering innovation and security.

Global Strategic Partnerships

Collaborations with world-leading technology providers ensure access to the best tools, platforms, and global standards.

Comprehensive IT Services

A full spectrum of solutions—from infrastructure to integration and execution—under one roof.

Skilled Professional Team

A diverse team specializing in software development, network solutions, engineering, and project management.

Client-Centric Solutions

Tailored, scalable, and future-ready solutions that align with client goals and industry best practices.

Commitment to Excellence

Relentless focus on quality, security, and operational excellence to drive long-term value for our partners.

MEET OUR TEAM

Deji Fisher- Managing Director

Deji Fisher, with over a decade at Iris Smart, has led major initiatives, including the upgrade to the 2nd generation ePassport. Known for his strong leadership and mentorship skills, he builds impactful relationships across teams and clients.

Mina Lawson- Executive Director, Operations

Mina Lawson brings 16+ years of expertise in identity management solutions across Nigeria. With a strong technical and project management background, she drives operational excellence and a culture of mentorship and accountability.

Olasunkanmi Fadayomi- Executive Director, Systems

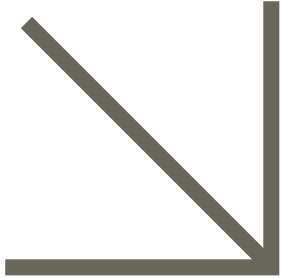

An expert in application development and enterprise systems, Olasunkanmi leads the design and deployment of cutting-edge software solutions at Iris Smart. He pioneered the billion-dollar Contactless Biometric Enrollment app for diaspora passport applications.

Roland Eteri- Executive Director, Technology

Roland Eteri leads innovation in biometric identity, digital passports, and secure mobility solutions. With 15+ years in technology leadership, he established a new R&D division, driving digital transformation and national revenue growth.
